

KATADYN FIRST RESPONSE GRAVITY FILTER 3L

PRODUCT CHARACTERISTICS

Technology:	Hollow fiber filter; 0.1 micron (0.0001 mm) EZ-Clean Membrane™
Effect:	Removes bacteria, cysts and sediment
Output:	Up to 2 l/min
Capacity:	Up to 1,000 l depending on water quality
Weight:	Approx. 192 g
Dimensions:	23 x 7.5 x 44.7 cm
Material:	Silicone, Hollow Fibers, TPU (thermoplastic polyurethane), 100% PVC and BPA free
Content:	Hydrapak® SoftFlask™ 3.0L, EZ-Clean Membrane™, quick connects
Manual Lang:	EN / FR / ES
Article No.:	8020588 Katadyn First Response Gravity Filter 3L
MOQ:	400 pcs

LOGISTICS DATA

Pieces per pallet:	400 pcs
Weight per pallet (incl. pallet):	approx. 120 Kg
Pallet dimensions (incl. pallet):	approx. 76 x 114 x 156 cm

PRODUCT CHARACTERISTICS > BENEFITS

Emergency filter for families / small groups (3L capacity) in temporary need of water filtration solution.

Simple handling and intuitive use. Ultralight and small, therefore packable into tight spaces.

Off-grid use: Due to gravity, water flows through the filter without additional need of energy

Protection: EZ-Clean Membrane™ reliably filters bacteria, cysts and sediments
Removable outlet hose with auto shut off to avoid cross contamination during refilling

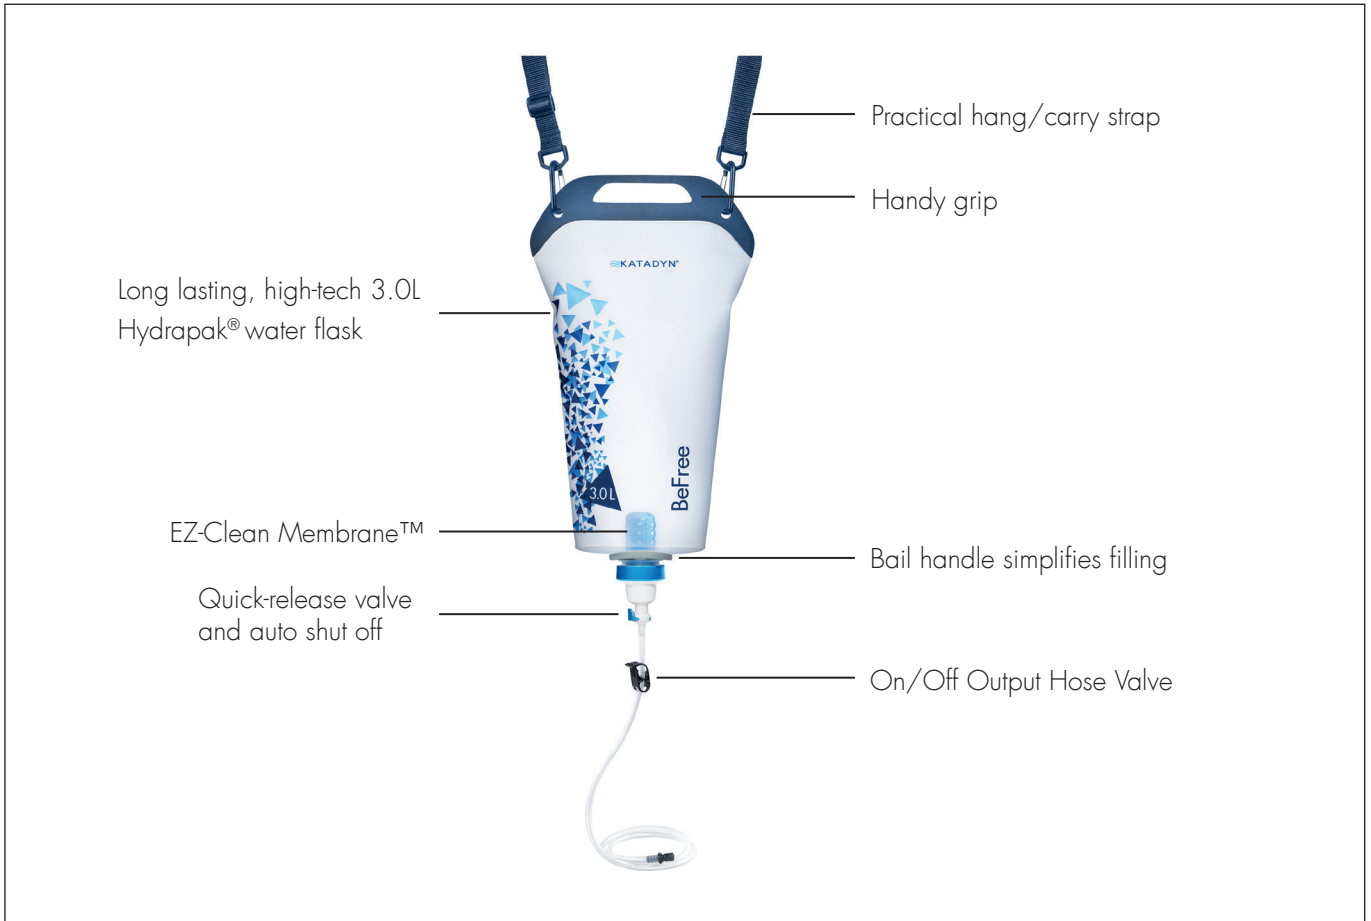

Suitable for first response periods: Easily cleanable by simply shaking or swishing. No backflushing or tools necessary.

Convenience: EZ-Clean Membrane™ provides a flow rate of up to 2L/min
Integrated bail handle on the nozzle simplifies filling
Practical carry strap makes fetching water from the source easier

Efficient logistical handling: Compact, foldable and lightweight product with minimised packaging material for very efficient pallet shipments (400 pieces per pallet).

KATADYN FIRST RESPONSE GRAVITY FILTER 3L

DETAILED VIEW

GRAVITY FILTRATION

Pumping is not necessary with gravity filtration. This means valuable time is freed up. The performance of the filter depends on the difference in height between the filter and container. The filtered water is retained in a separate canister, bottle or water bag.

Recommendation:

If the water is not to be used on the same day, use Micropur to preserve the water (preservation for up to six months).
